

# Go mobile-only with Grubhub!

Mobile-only locations make it easy for students to order from any on-campus venue with their phones—creating a safer, contact-free dining experience.

## How your campus benefits:

### Safe mobile ordering

Offer a safe on campus option for students to order food they love

### Less foot traffic

Reduce walk-up traffic and keep lines shorter

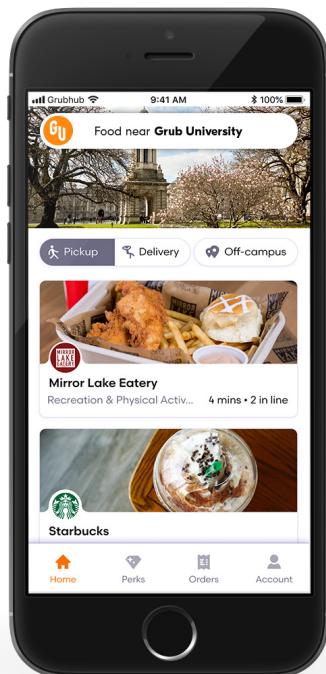

### Streamline operations

Easily integrate your system with Grubhub and reduce the need for cashiers

### Payment flexibility

Accept all on campus payment options including meal exchange transactions

## How it works:

- 1 Set up your store to take mobile orders only
- 2 Allow students to order and pay from their mobile phones for that on-campus venue
- 3 Your store will be fully integrated with Grubhub. The incoming order will flow through the app, your in-store hardware, and to the back of house
- 4 The student grabs their order for a safe, contactless pickup
